PROJECTS

CRISTINA'S WEBSITE

A portfolio app created to offer more information about myself and some of my projects. It consists of a clean interface that is responsive and easy to navigate.

Tools: AngularJS, Express, Node, Gulp, SASS

EXPLORER

An app that connects two of my passions: coding and exploring new places. It generates possible travel destinations based on a budget and travel dates. Logged in users can also create a bucket list for future trips.

Tools: Express, MongoDB, Node, SASS, User Authentication, Bcrypt, Session Cookies, Twitter Oauth, Sabre API, IATA API, Instagram API

REDDIT CLONE

A homework exercise taken a little further. A single page, interactive, reddit clone with its own external API used for retrieving, creating and updating the data.

Tools: AngularJS, API built with Express.

TIC TAC TOE

One of my first projects. Built only with Javascript and backed up by a simple http-server.

Tools: Javascript, Node, CSS

TECHNICAL SKILLS

CLIENT SIDE

HTML5
CSS3
SASS
Javascript
AngularJS
Bootstrap

SERVER SIDE

Node
Express
Ruby on Rails
MongoDB
Firebase
PostgreSQL

UI/UX

Sketch
Photoshop
InDesign
Balsamiq

OTHER

Git + Github
Jasmine
Bluemix
Gulp
Pivotal Tracker
Keynote

EDUCATION

GALVANIZE

- Six months of intense code crushing
- Hands on experience with building real products
- Pair programming, hackathons, code defenses
- Constant learning and improving

ACADEMY OF ECONOMIC STUDIES FROM MOLDOVA

- Bachelor's Degree in Finance + Banking
