PROJECTS

CRISTINA'S WEBSITE
A portfolio app created to offer more information about myself and my projects. It consists of a clean interface that is easy to navigate and responsive.

Tools: AngularJS, Espress, NodeJs, Gulp, SASS

EXPLORER
An app that connects two of my passions, coding and exploring new places. It generates possible travel destinations based on a budget and travel dates. Logged users can also create a bucket list for future trips.

Tools: Express, MongoDB, NodeJs, SASS, User Authentification, Bycrypt, Session Cookies, Twitter Oauth, Sabre API, IATA API, Instagram API

REDDIT CLONE
A homework exercise taken a little further. A single page, interactive, reddit clone with it's own external API used for retrieving, creating and updating the used data.

Tools: AngularJs, API build with Express.

TIC TAC TOE
One of my first completed project, build only with Javascript and backed up by a simple http-server.

Tools: Javascript, NodeJs, CSS

TECHNICAL SKILLS

CLIENT SIDE	SERVER SIDE	UI/UX	OTHER
HTML5	Node	Sketch	Git + Github
CSS3	Express	Photoshop	Jasmine
SASS	Ruby on Rails	InDesign	Bluemix
Javascript	MongoDB	Balsamiq	Gulp
Angular JS	Firebase		Pivotal Tracker
Bootstrap	PostgreSQL		

EDUCATION

GALVANIZE
- 6 months of intense code crushing
- Hands on experience with building real products
- Pair programing, hackathons, code defences
- Constant learning and improving

ACADEMY OF ECONOMIC STUDIES FROM MOLDOVA
- Bachelor's Degree in Finance + Banking
